

UFO Sighted Near Seattle

Friday, 23 November 2007

Residents are said to have seen a UFO near Seattle, WA Thursday, November 22, 2007. Some residents in the Puget Sound area reported the UFO early in the morning. A Shoreline man reported that he watched the object for more than 15 minutes at about 6:25 a.m.

A Marysville woman said she saw two objects at about 7:40 a.m., also to the east. Jessica Becker took a photo of one of the objects.

The FAA said they had received no reports of an unidentified object.

Peter Davenport of the Seattle-based UFO Reporting Center said it took him about two seconds to identify the object as a jet plane-generated contrail. He said the jet set off a glimmer in the sun and the contrail follows before quickly dissipating.
